Look at the Guidelines!

Dear Members,

Dear Members,

One more time a call for help with the guidelines!

Next year the Consensus Committee will rewrite the guidelines. This will be a very big job! And it also will need a lot of time when there are only a few people who do this. So the question is, look at the guidelines and let the committee know what they have to change. Or better would be: Submit to take place in the Consensus Committee and do it together!

One more time look back at Katowice

Dear SOSORT Members,

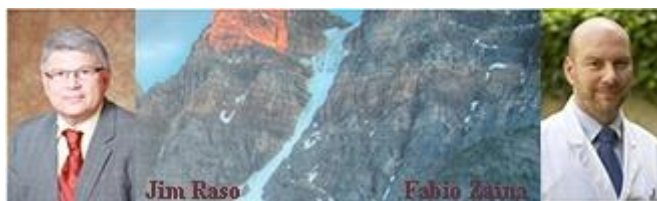

Last newsletter I already wrote about the success in Katowice. Here the last little lookback through a video.

I hope you enjoy!

Fabio Zaina
SOSORT President

Look forward SOSORT meeting 2016 together with IRSSD

Dear Colleagues,

The Society on Scoliosis Orthopaedic and Rehabilitation Treatment and The International Research Society of Spinal Deformities wish to invite you to the **1st Joint SOSORT-IRSSD education and scientific meeting**, which will take place on **May 25 to May 28 of 2016 at The Banff Centre in Alberta, Canada.**

A lot of persons together, will make the job per person smaller.

If you don't want to participate in the Committee, please be aware of email from them! Because the need your feedback during the next year. And also a possibility. Fill in the excel file.

Disorders](#)**

Conference participants will have the opportunity to network with colleagues and other researchers from around the world and keep up to date with the latest in cutting edge research and development in the fields of Spinal Deformities. This year's conference will offer a dynamic extension of the scope of previous conferences by providing even more prospects for professional development and scientific interaction.

We have recently launched the conference website (www.SOSORT-IRSSD-2016.com) where you can find important information regarding the program, venue, abstract submission guidelines, and more. The meeting, held within the world famous Rocky Mountains, promises to be a fantastic learning experience for all who attend.

We hope you will join us for the **1st combined SOSORT-IRSSD Conference in 2016** and be a part of the conversation in Banff.

Best regards,

Eric Parent, SOSORT host
Edmond Lou, IRSSD host

The New Website

Dear members

Jean Claude has been working on the renewed website for SOSORT. It is still in the making but it will be easier to access from smartphones and iPads. We can post all the videos from previous conferences and scientific sessions and you can view them on your PC.

Now you can find the First Education and Research sessions online. New website will offer easy search for background and research topics to make it easier for our new members. Plenty of SOSORT slides can be viewed as well for basic education. Lets hope that easy access to all the SOSORT events will help members who couldn't come to every conference.

20 Q&A

This is the initial 20 questions and answers prepared according to so sosort guidelines and consensus which can help patients and professionals to find answers when searching on the

internet. We are still working on the section and if you would like to send us your input please e-mail us.....

Small overview of the changes:

- Home page graphic design more attractive
- Responsive (better Ipad and Smartphone visibility)
- Converting videos from .flv to .mp4 (.flv = no Ipad visibility)
- Accessibility replay scientific sessions meetings Milano, Chicago, Wiesbaden,
- First Education and Research sessions are online
- Improved search motor (with one or two words, it is possible to easily obtain the background of a new research topic). This is very useful for a young future new member.
- SOSORT slides for local basic education.

But of course a look by yourself would be more interesting.

Enjoy the new information and ofcourse if there are some mistakes...don't hesitate, please let us know!
